

When compared to all the useless legislation that basically protects us from ourselves, why can't you just leave well enough alone? This one at least provides a public good!

On the other hand I kind of like hanging up on people so maybe you should spend a couple of million dollars training people how to hang up on people they don't know selling things they don't want or offering them "something" for "nothing". Think of how many calories are burned just getting up from the dinner table to answer the phone with that annoying sales pitch on the other end. DATCP is single handedly causing obesity in the general public. (OK, I'm being facetious here but, hopefull you got my point!)

Seriously, keep up the good work and don't cower in the face of a good fight!
